# introducing **DANCE**

In any Dance course at Belmont students can expect to learn the essentials of dance, try several different styles, and learn new ways to improve their physical and mental health. There are also performance opportunities in all classes.

*"Belmont Dance is a place I can go to express my emotions without having to tell people how I feel. When I come to this space, I feel safe. I've never had a community before so it feels good to feel like you belong somewhere."*
